Editorial Board:

Chief Editor –

D.R. Kaidarova, MD, Member of the Kazakhstan National Academy of Sciences, KazIOR, Almaty

Deputy Editor in Chief –

A.S. Shinbolatova, MPH, KazIOR, Almaty

Administrative Editor –

V.B. Kim, MD, KazIOR, Almaty

Proofreader – **T.V. Vasilieva**, KazIOR, Almaty

Translation editors –

M.K. Sherimkulova (Kazakh), KazIOR, Almaty

T.V. Vasilieva (English), KazIOR, Almaty

Printing layout –

A.A. Abdrashitov, Candidate of Biology, KazIOR, Almaty

Executive Secretary –

L.A. Malysheva, Candidate of Biology, KazIOR, Almaty

Editorial Board Members:

A.Zh. Abdrakhmanova, MD, KazIOR, Almaty

T.A. Adylkhanov, MD, Prof., Semey State Medical University, Semey

A.A. Baynazarova, MD, Prof., Sunkar Medical Center, Almaty

T.G. Goncharova, Doctor of Biology, KazIOR, Almaty

Zh.Zh. Zholdybay, MD, Prof., Kazakh National Medical University, Almaty

R.Z. Abdrakhmanov, Candidate of Medicine, KazIOR, Almaty

Z.D. Dushimova, Candidate of Medicine, KazIOR, Almaty

A.Zh. Zhylkaidarova, Candidate of Medicine, KazIOR, Almaty

E.I. Ishkinin, PhD, Almaty Cancer Center, Almaty

I.R. Khusainova, Candidate of Psychology, KazIOR, Almaty

O.V. Shatkovskaya, MBA, KazIOR, Almaty

The journal is in the List of official publications of the Committee for Quality Assurance in the Sphere of Education and Science MES RK recommended for the publication of the main results of scientific activity. The journal is cited in the RSCI database and has a non-zero impact factor. The journal has a non-zero impact factor in the Kazakhstani citation base of the National Center for Scientific and Technical Information.

Dear audience!

We are glad to present this year's third issue of the "Oncology and Radiology of Kazakhstan" journal!

In the name of the Editorial Board and on my behalf, I ask all authors to pay serious attention to the requirements for manuscripts. This will significantly ease the process of accepting manuscripts for publication.

This issue shares the experience of cancer care organizational improvement, the results of original studies, and the epidemiological situation assessment for various cancer localizations.

The assessment of the operating efficiency of the Center for Hematology project office in studying the approaches to the treatment of patients with oncohematological diseases is of interest. The authors provide the characteristics of patients treated since 2015 and included in the database.

We also offer an article published in English called "Gender Differences in Patients with Atrial Fibrillation Shown by Transthoracic Echocardiography and Comput-

ed Tomography," which studies the use of transthoracic echocardiography and computed tomography in examining male and female patients.

The issue contains literature reviews on the prevalence of cancers of various localizations prepared by our doctoral students and young scientists led by experienced mentors. The articles provide a detailed analysis, trends, and ways to improve cancer care in colorectal cancer, cervical cancer, and breast cancer.

The journal offers interesting materials on acute renal injury in patients, a series of cases of metabolic disorders in patients with oncologic pathology of acute leukemia after hematopoietic stem cell transplantation, and the use of machine education algorithms to develop a model for predicting the survival of lung cancer patients in the Republic of Kazakhstan.

We are pleased to bring diverse articles and research results to your attention!

Looking forward to your new materials! Take care and stay healthy!

Respectfully Yours,

Dilyara Kaidarova

Editor-in-Chief of the "Oncology and Radiology of Kazakhstan" journal
